SENATE BILL

No. 1262

Introduced by Senator Correa

February 21, 2014

An act to add Article 25 (commencing with Section 2525) to Chapter 5 of Division 2 of the Business and Professions Code, and to add Article 7 (commencing with Section 111657) to Chapter 6 of Part 5 of Division 104 of the Health and Safety Code, relating to medical marijuana.

LEGISLATIVE COUNSEL'S DIGEST

SB 1262, as amended, Correa. Medical marijuana: regulation of physicians, dispensaries, and cultivation sites.

(1) Existing law, the Compassionate Use Act of 1996, an initiative measure enacted by the approval of Proposition 215 at the November 6, 1996, statewide general election, authorizes the use of marijuana for medical purposes. Existing law enacted by the Legislature requires the establishment of a program for the issuance of identification cards to qualified patients so that they may lawfully use marijuana for medical purposes, and requires the establishment of guidelines for the lawful cultivation of marijuana grown for medical use.

This bill would require the State Department of Public Health to license dispensing facilities and cultivation sites that provide, process, and grow marijuana for medical use, as specified, *including requiring a background check for license applicants*, and would make these licenses subject to the restrictions of the local jurisdiction in which the facility operates or proposes to operate. ~~The bill would require the department to establish standards for quality assurance testing of medical marijuana and would prohibit the use of nonorganic pesticides in any~~

~~marijuana cultivation site. The bill would require licensed dispensing facilities and licensed cultivation sites to implement sufficient security measures to both deter and prevent unauthorized entrance into areas containing marijuana and theft of marijuana at those facilities, including establishing limited access areas accessible only to authorized facility personnel, and would require these facilities to notify appropriate law enforcement authorities within 24 hours after discovering specified breaches in security. The bill would require licensed dispensing facilities to verify that the recommending physician and surgeon is licensed to practice medicine in California before providing a marijuana product to a patient. This bill would prohibit the distribution of any form of advertising for physician recommendations for medical marijuana unless the advertisement bears a specified notice and requires that the advertisement meet specified requirements and not be fraudulent, deceitful, or misleading, as specified. The bill would make enforcement of these provisions the responsibility of the county health departments, with oversight by the department. Violation of these provisions would be punishable by a civil fine of up to \$35,000 for each individual violation. By expanding the duties of local health officers, this bill would impose a state-mandated local program.~~

(2) Existing law, the Medical Practice Act, provides for licensure and regulation of physicians and surgeons by the Medical Board of California.

~~This bill would establish requirements for a physician and surgeon to recommend medical marijuana, including prescribed procedural and recordkeeping requirements, and would require a recommendation for medical marijuana for a person under 21 years of age to include a specific justification for the recommendation and why the benefit of use is more important than the possible neurological damage that could be caused by the person using marijuana and to be approved by a board certified pediatrician.~~

~~This bill would require the board, by January 1, 2016, to convene a task force of experts in the use of medical marijuana to review and update, as necessary, board to consult with the Center for Medical Cannabis Research on developing and adopting medical guidelines for recommending medical the appropriate administration and use of marijuana, as specified.~~

~~Violation of these provisions would be punishable by a civil fine not to exceed \$5,000. The bill would make the recommendation of medical marijuana without a prior examination and medical indication and~~

~~recommendation of medical marijuana for nonmedical purposes unprofessional conduct, to be punished as provided. The bill would also make it a misdemeanor for a physician and surgeon who recommends marijuana to a patient for a medical purpose to accept, solicit, or offer any remuneration from or to a licensed dispensing facility in which the physician and surgeon or his or her immediate family has a financial interest. By creating a new crime, this bill would impose a state-mandated local program.~~

~~The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.~~

~~This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.~~

~~With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.~~

~~*The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.*~~

~~*This bill would provide that no reimbursement is required by this act for a specified reason.*~~

~~Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.~~

The people of the State of California do enact as follows:

- 1 SECTION 1. The Legislature finds and declares all of the
- 2 following:
- 3 (a) The California Constitution grants cities and counties the
- 4 authority to make and enforce, within their borders, “all local
- 5 police, sanitary, and other ordinances and regulations not in conflict
- 6 with the general laws.” This inherent local police power includes
- 7 broad authority to determine, for purposes of public health, safety,
- 8 and welfare, the appropriate uses of land within the local
- 9 jurisdiction’s borders. The police power, therefore, allows each
- 10 city and county to determine whether or not a medical marijuana
- 11 dispensary or other facility that makes medical marijuana available
- 12 may operate within its borders. This authority has been upheld by

1 City of Riverside v. Inland Empire Patients Health & Wellness,
2 Inc. (2013) 56 Cal.4th 729 and County of Los Angeles v. Hill
3 (2011) 192 Cal.App.4th 861.

4 (b) If, pursuant to this authority, a city or county determines
5 that a dispensary or other facility that makes medical marijuana
6 available may operate within its borders, then there is a need for
7 the state to license these dispensaries and other facilities for the
8 purpose of adopting and enforcing protocols for training and
9 certification of physicians who recommend the use of medical
10 marijuana and for agricultural cultivation practices. This licensing
11 requirement is not intended in any way nor shall it be construed
12 to preempt local ordinances regarding the sale and use of medical
13 marijuana, including, but not limited to, security, signage, lighting,
14 and inspections.

15 (c) All of the following elements are necessary to uphold
16 important state goals:

17 (1) Strict provisions to prevent the potential diversion of
18 marijuana for recreational use.

19 (2) Audits to accurately track the volume of both product
20 movement and sales.

21 (3) An effective means of restricting access to medical marijuana
22 by persons under 21 years of age.

23 (d) Nothing in this act shall be construed to promote or facilitate
24 the nonmedical, recreational possession, sale, or use of marijuana.

25 SEC. 2. Article 25 (commencing with Section 2525) is added
26 to Chapter 5 of Division 2 of the Business and Professions Code,

5 ~~obtain, including high tetrahydrocannabinol (THC) levels, low~~

8 ~~no circumstances shall a physician and surgeon recommend butane~~

10 ~~(3) Maintain a system of recordkeeping that supports the~~
11 ~~decision to recommend the use of medical marijuana for individual~~
12 ~~patients.~~

14 ~~person under 21 years of age shall be approved by a board-certified~~
